Examiner's Comment/Drawing Objection

1. The drawings are objected to because the drawings show Figures 1A and 1B while the specification on page 7 gives a brief description of Figure 1. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. Applicant is reminded that in order to avoid an abandonment of this application, the drawings must be corrected in accordance with the instructions set forth in this paper.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or show pooling or gathering write requests in a write cache along with delaying processing the write acknowledgements of the write requests until all of the pooled or gathered write requests have been written back to the storage media and then flushing the write cache based on reaching an appropriate pool or gather size.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
